INSULATING COVER FILM

Andy swimming pool insulation membrane is a new product developed by our company in 2012. The product is non-toxic, harmless, anti-aging, corrosion-resistant, UV-resistant, slip-resistant, waterproof, antibacterial, shock-resistant, pressure-resistant, environmentally friendly, and durable. Tests have proven that Andy swimming pool insulation membrane can reduce the daily drop in swimming pool water temperature by 2-3 , saving energy and reducing operating costs. At the same time, with the insulation membrane installed, heat and water vapor are difficult to dissipate, significantly reducing water vapor in the swimming pool, improving the air environment, and mitigating the corrosive effects of water vapor on the pool and equipment. Andy swimming pool insulation membrane is your best choice for saving energy and reducing operating costs!

E320088000

INSULATED FILM COVERING TRUCK

1. Each vehicle can be wrapped with 3 rolls of 2.5m wide × 25m long thermal insulation film, or 2 rolls of 2.5m wide × 50m long thermal insulation film.
2. The film-covering vehicle is made of aluminum alloy and will never rust.

E320156000

ANTIWAVE SWIMMING PODIUM (VICTORY STAND)

- * The podium is designed for competitions such as swimming, diving, water polo, and synchronized swimming.
- * The podium is made of fiberglass, which is waterproof, corrosion-resistant, sturdy and durable.
- * The podium consists of three platforms of different heights, and their order can be interchanged.
- * The podium can accommodate up to ten or more people standing on it at the same time.

E320158000

CONVERTIBLE PARTITION WALL (STANDING LYING DOWN)

- * The dimensions of the pool partition wall are 25m (L) × 0.3m (W) × 2m (H), of which the height of the partition wall above the water is 300mm. Other dimensions can be customized.
- * The partition wall material is made of short-cut glass fiber, phthalic acid, isophthalic acid unsaturated polyester, bisphenol, vinyl resin and core material through molding. It has high strength and corrosion resistance. The fixing bolts and connectors are all made of stainless steel AN SI-316L.
- * The color of the partition wall surface can be customized according to customer requirements or be the same as the color of the pool tiles.
- * The two sides of the dividing wall should have black or blue "+" lane markings that conform to the standards of International Swimming Federation.
- * The partition wall has hanging devices on both sides for hanging 25m or 50m lane lines, and also has water line holes for 50m lane lines to pass through. That is, both sides of the partition wall can hang lane lines and have water line holes for lane lines to pass through. This way, the water lines do not need to be removed during the conversion of the partition wall from vertical to horizontal, making the operation convenient.

E320184000

FOLDABLE TEACHING PLATFORM

The teaching platform's surface is made of reinforced fiberglass, making it non-slip, aesthetically pleasing, and practical. The foldable platform's support legs are made of PVC, and their height can be adjusted from 0-100mm to fit the pool's depth. Adjustment requires no water; swimmers can easily adjust the platform in the water using a special tool. The platform is simple and convenient to install; installation and disassembly do not require water or professional lifeguards. Anyone who can swim can install it, saving on pool water costs and reducing assembly/disassembly time.
